An excerpt from the royal book of records

The prophecy comes true...

A strange event has occurred in the kingdom of Amaravathi, a disease has spread like wildfire and already has half of the kingdom in its hold. Scholars confirm that the prophecy has finally come true.

"After the 250th SOLAR ECLIPSE will arrive a disease that will wipeout kingdoms one by one turning them to graveyards and only opening the doors of the secret temple will prevent this from happening..."

The king appointed his best people to look for help. It is said that the king received a pigeon from them with a message confirming that the location of the secret temple can be found by passing through the 3 secret cities beyond the sunufi ocean.

The king has agreed to the minister's idea of asking the 7 neighbouring kingdoms for help and held a meeting with the other kings. All kings have agreed to send their elite people on this expedition to save the world.

We, the fun committee enjoyed more than you in framing questions and puzzles and also learning about developing a web application. This event also gave us many memorable moments, which we will surely cherish for a long time (for ex. late night discussions).
We thank all the kingdoms for actively participating and altogether making the event a enjoyable one.
Thank you
GigSky Fun committee

When you enter Devipura, there is a lot of commotion among people.In midst of that,the archaka(priest) of Devipura,Vaikhanasa approaches you and comes to know the intention of your visit to the city.He promises to give you the key to next city if you help him.

Vaikhanasa: Look, I promise you to give the key but there is a small bargain.
In 3 days time is the annual Vishnu Rathotsava. On that day,we worship all shaligrams. But one of our subjects,Samvisha has stolen the varaha shaligram and has entered the Aryayek.
You: What is aryayek?
Vaikhanasa: It's a time travel machine.We believe he has gone to year 2020 AD. He has left his secret trail path hoping his brother,Raghava would follow him.But we have arrested Raghava and caught hold of the secret trail. If you can help us trace Samvisha's location using the map, I can send our elite forces to nab him and get our shaligram back and you can get your key. "**I guess the trail is a clue to where he is hiding .Good Luck**".By the way, this is the letter Samvisha left:

Hey Brother,

- Enter the '**land where you can see descendents of Airavatha**'.
- From there go South to black mountains,then travel in the south-west direction to reach another state.There you will find few lakes.Go south to reach the **capital city.**No time for wine there.Go to airport.
- From there go on a long journey towards the north-west . Cross the prime-meridian, get down at the **country** completely surrounded by water,where Vikings once lived.It will be pretty cold up there.
- From there travel south-east,you will find a **place**..It's a stone obelisk with 5 bronze sculptures placed on it to commemorate war dead..
- Take the fastest **means of transport** from there to my location..I am lying low at the _____ forest .

Hope you find me.
Stay safe.Waiting for you.

Welcome to the City of Teshwasara

The second city,Teshwasara belongs to Ajanvriksha kingdom.Overcrowded markets,lush green fields,tall buildings made the city look beautiful.On approaching the head priest there for the key,you come to know that the royal guards have arrested his son for the crime he didn't commit. He decides to help you if you free his son from the dungeons.Along with other fascinating things about the city,you also learn that there is a 3 feet stone door below the royal palace which has been sealed for centuries.

As it's impossible to break into the heavily guarded dungeons, you set a deal with the king to open the underground sealed doors in exchange for the priest's son.The king learning about you and your journey agrees to take you there on a condition,

In case you fail,you will end up in the same dungeons as the priest's son,for which you agree as there is a bigger cause you are fighting for.

On reaching the doors,

King: "THE ROYAL BOOK SAYS ONLY A PRINCE CAN UNLOCK IT. BUT I HAVE TRIED WITH ALL MY FOUR SONS..., I AM HELPLESS. IT'S MY DESIRE TO SEE WHAT LIES BEYOND THE DOORS BEFORE I DIE".

On the Door,you find words which don't make any sense:.

CZVR EIAVAGKEA SWQKIH ZV GJI UFZZ QJ EIMPKSJJ AGQRTJ.XECC IF BUG VTDWIGV DW LNTOCVAF YLD CQRU EI KPR EICKZR,JI LZTY JIAG GBW YCCWPM MI.

Also on the right corner, there is a small slot.

(Maybe something has to be placed here to unlock it)

YOU: "DO NOT WORRY KING OF AJANVRIKSHA. ..WE WILL HELP YOU.

If you help the king, the priest's son will be out.

That means you get the key to the next city.More importantly, you get to see what is beyond the doors.:)

Welcome to the City of Operipuram

On entering the third city,Operipuram,you see colorful flag decorations and huge banners put all across the city which reads "Operipuram Varshika Kreedotsava 460".On the sideways,you see various events going on such as wrestling,ashtapada(chess),chaturanga,kho-kho,kabaddi etc.
You then meet the head priest of the city,Vishwamihira and ask for the key,but he demands 100 gold coins in exchange for the key.But you try explaining him you are short of coins and the purpose of the visit.He still disagrees,
Vishwamihira: You all look so well built and brave.Why don't you participate in the games as it's open to other kingdoms as well and earn some coins?
(You agree)
He advises you to take part in the following four events:

You first walk towards the watchtower near the coast and find out that archery event is about to take place.A 6ft tall and athletic person from your group enrolls for the event.

Standing on the watchtower, you have to aim at the target placed on a boat sailing on the sea 400 m away.X, very good at math, angles his arrow perfectly to the target on the boat.If he sets his arrow at an angle of declination of 66.86 degrees. At what height is he standing from the sea level?

*Next you enroll for the COW and BULL game. If a letter is in its proper place, it is called a BULL (B).if a letter is in the word but if it is in the wrong place, it's called a COW (C).
Eg.
If the final answer is TOWER, and the guess is
WATER - 2B(E,R are in correct position), 2C(W,T in wrong position).

So here are few guesses, please try to arrive at the final word using these.

AROUND - 3C	CARBON- 1B 1C
DRIVEN -1B	REGION -1B
COPIED - 0B 0C	NUMBER - 1B 1C
RESULT - 4C	PERSON -1B 1C
SALMON -3B 1C	SAVING -1B 2C
WAITED - 1B 1C	

*Next you enroll for the "I am Nala Maharaja" competition.Here,you are provided with few ingredients which include:

A)Banana,watermelon,musk melon.
B)wheat flour,baking soda,chilli powder.
C)cumin seeds,oil,yogurt.

The participants must prepare a dish that includes at least an item from each set(A,B,C)
What will you prepare ? The best dish will be served as breakfast to the king.

*Next you all have to participate in a game where you win if you fall back while facing your opponents..
which game is this?

After the games, you meet Vishwamihira, he asks you to keep the coins and tells you that he made you participate in these events for a reason and walks away.....
It's up to you now...
